Business Guide
IRAQ

The German Near and Middle East Association (NUMOV), in close cooperation with the German Orient Institute, the National Investment Commission of Iraq, and the Iraqi Embassy Berlin publishes the Business Guide IRAQ. The guide provides comprehensive information on the political and economic framework, explains the legal foundations for market entry, and offers detailed insights into the country's key sectors, regional dynamics, and major infrastructure projects.

Iraq is a country in a decisive phase of transformation offering a large domestic market and a growing workforce. Its strategic position between the Persian Gulf, Türkiye, and the Levant makes it a natural logistics and trade hub, a role reinforced by flagship projects such as the Iraq Development Road and the Grand Faw Port, which aim to connect Asia with Europe.

Beyond its established oil and gas industry, Iraq is expanding into infrastructure, renewable energy, manufacturing, healthcare, and digital services. The government offers attractive investment conditions, including tax exemptions, investment protection, and free trade zones. Germany remains one of Iraq's most important European partners, particularly in mechanical engineering, energy technology, and vocational training. This guide is designed for companies seeking to navigate the opportunities and conditions of one of the Middle East's most promising emerging markets.
