
Round Table

Iraq

25th July 2019, 10.30 a.m. – 1.30 p.m.

NUMOV-Conference-Centre

Kronenstraße 1 / Mauerstraße 13, 10117 Berlin

Iraq has recently begun a considerable rebuilding programme that spans many sectors of the country's economy and infrastructure. From energy generation and distribution to industry to education, Baghdad has formulated ambitious goals – and German companies are among the global leaders in these sectors, eager to engage in closer business relations with Iraq. While historically strong, bilateral trade between Iraq and Germany has decreased in recent years. Nevertheless, the volume of planned reconstruction and modernisation projects will certainly trigger a renewed growth. In 2018, German exports to Iraq stood at an estimated EUR 718.85m, while imports reached EUR 1.07bn. To put this in perspective: in 2013 Germany exported about EUR 1.39bn to and imported about EUR 445.06m from Iraq.

10.15 a.m. **Registration**
10.30 a.m. **Welcome address**
