

Business Guide SAUDI ARABIA

Published in May 2020

The Business Guide SAUDI ARABIA provides information on the important sectors, regions and figures from the largest economy in the Gulf region, offering a background on its politics, history and society alongside practical information on business activities.

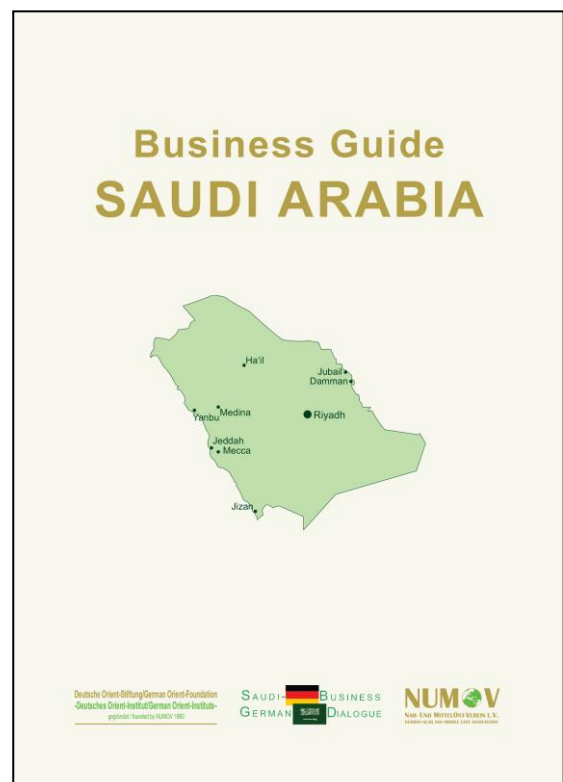

The Kingdom of Saudi Arabia is an important trading partner for Germany. In addition to the petrochemical industry, the crude oil and natural gas sector plays a fundamental role in the Saudi economy, and German companies from many fields – particularly mechanical and plant engineering – can look back upon many years of cooperation here. Riyadh's efforts to diversify the economy have gathered pace in recent years and include lighthouse projects such as Saudi Vision 2030 and NEOM.
